Credit Card Customer Dashboard

Insights

- **Overall Revenue:** The total revenue is \$55M, with \$45M coming from transactions and \$8M from interest, indicating a notable contribution from interest towards the overall revenue.
- **Customer Demographics:** Male customers contribute \$30.2M to the revenue, which is more than female customers, who contribute \$25M. Males are contributing about 55% of the revenue.
- **Credit Card Contributions:** Blue and Silver credit cards are responsible for 93% of all transactions, highlighting their dominance in customer usage.
- **Top States:** Texas (TX), New York (NY), and California (CA) are the top-performing states in terms of revenue, indicating these regions are driving most of the sales.
- **Seasonal Trend:** There's a spike in transaction counts in Q3, suggesting a seasonal increase, potentially due to events like back-to-school shopping or holiday season preparations.
- **Chip Usage:** The chip (swipe) method is the most preferred, generating \$35M (70% of the total transaction amount), showing customer reliance on this method over other options like online payments.
